

# RoR News

September 7, 2015 (Volume 1, Issue 1)

What is RoR News about?

I will review new mods here and also follow up on the latest RoR stories, including bus crashes, major train derailments, weather, new RoR vehicles going into production, new areas of the United States of RoR being discovered, and new updates to RoR itself.

This is the official first issue, which currently only has one page.

## Regions:

- MitCity

- N. Helens

- Train Valley

- Russia

- Neo Queretaro

## Ikarus bus manufacturer going strong!

Lately Ikarus has been manufacturing a lot of buses for RoR. Some people are happy about this since there are more vehicles, but others are outraged that these buses are taking over and that they are everywhere you look. They also claim that vehicles from other vehicle manufacturers are not doing very well due to the high number of these buses being produced.
