Van Hool is the biggest bus in RoR.  
It has 3 parts, so it's exiting drive.  
We took this wonderful bus to the F1 Testtrack.  
It's really slow.. Background picture was taken just  
after 1<sup>st</sup> corner and look at the top right corner,  
there's the time... But for bus it's – great.

## *HQ Found*

Police made huge catch when they found Popular NSH Mafia's HQ in North Saint Helens. Mafia's boss Angelo Dimelo's car was next to house. In the house police found drugs, copied money and many guns. Trial will be in North Saint Helens county court house.

# GET IN, SIT DOWN, SHUT UP, HANG ON.

WoW! Legendary car, Ford I guess?

It's so freaking awesome! It can easily reach the top speed, then it makes couple spins "and the beats goes on". This car maker is Unknown but lot of thanks to him. Classic, speed and design are mixed.

# ***DRAMATIC CRASH***

Grenoble had terrible moments when radar saw that Twin Otter flight number 527 wasn't moving. It took too much time for Ambulance to get there and all 4 people on the plane died while Ambulance was making his way to the plane. It was hard for the whole city and today everyone is having a quiet moment. We tell what happened by the black boxes.
