# Freight Trailer Roll-Over Causes 5 Hour Backup

From what Island Police can tell us a DAF semi-truck traveling around 80 mph. lost control while trying to turn into the airport and rolled at least twice. The semi finally came to rest beside the main hangar. The driver whose body has not yet been identified was thrown some 50 ft. from the cab of the truck. Police are asking anyone who witnessed this accident to contact them as soon as possible. Our heart-felt condolences go out to the family of the driver. *(The crash scene is pictured below and to the left.)*

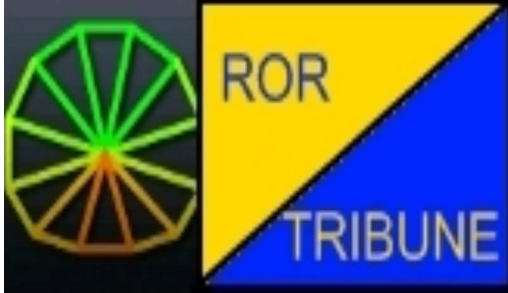

# Southwest Motors Changes Name To Nexus Motors

Southwest Motors announced on Monday that its name will be changed to Nexus Motors. The reason for the recent change has not yet been released, all we know is that the company filed for Chapter 11 Bankruptcy last month. The name change may be a result of the reorganization of the company. The CEO of the company was not available for comment at last request. We at RoR Tribune have heard from a reliable source that not only has the company change their name but also that the company may be reducing its size by stopping production of some of the less profitable vehicles that it manufactures. We will make it our mission to keep you updated on everything having to do with the reorganization of Nexus Motors, previously Southwest Motors.

*(The new logo of Nexus Motors is pictured above and to the right.)*

Because this is the first publication ever, Tribune information is located on the page 2.

# INFORMATION

**To submit a story:** To submit a story for the Tribune PM a screen-shot and a short explanation for me to base a story off of.

**To republish:** You may not reproduce the Tribune or any part of the Tribune without the personal written consent of RoR Firefighter (me).
